John - Attached are the excised portions of the Reg Agenda and Plan relevant to OWOW (thank you Antonio).

Here's our proposed responses to the two comments from OMB:

1. **Ex. 5 Deliberative Process (DP)**
2. **Ex. 5 Deliberative Process (DP)**

Ex. 5 Deliberative Process (DP)

We have until 10 tomorrow to submit comments in the OneDrive file provided by RMS. Mindy can take a quick scan upon return and we can see what WPS says about further date adjustments. As needed, we can finalize at our 9:30 and Antonio can submit then.

Here are the files with highlighted portions for OWOW.

- Looks like a light-lift.
- Only (2) comments (2) from OMB relate to VIDA.
- We will need to review the existing write-ups and adjust dates if appropriate.
- We did not have OMB flag any change to an action from significant to non-significant or vice-versa.

○ **Ex. 5 Deliberative Process (DP)**

Let me know if you want me to share these two files with Brian/Mindy and Tom/Grace, or whether you want to convey to them.

Thanks.

Antonio

Good morning! I'm doing a quick assessment and would appreciate your quick assessment as well. Can you please take a quick skim to see what level of effort is needed? Thanks.

Folks—this will need some quick attention to allow an OWOW level review by the deadline. Note Mindy is out on Monday. Available to chat first thing Monday to strategize completion if needed.

Thanks,
John

Subject: URGENT: Office Comments on Reg Agenda and Reg Plan galley proofs, due to IO, 10 am Tuesday Sept 29

Hi everyone, as predicted, we've been squeezed into a short turnaround time for review of Reg. agenda & plan passback from OMB. The Reg Agenda document is the Galley Proof for all of EPA, so you will need to scroll through the 300+ document to make your edits (we've highlighted in yellow the OW actions e.g. pre-rule, proposed, final, long term, etc). We are requesting Office edits be entered into the one drive document (link below) for IO review no later than 10 am Tuesday morning so that IO can review and submit AA comments to OP by COB Wednesday, Sept 30. This is a hard deadline set by OP. Please let us know that you are working on this to meet this tight timeframe.

If you need to include a Non Sign. request, please do that by 3pm Tuesday afternoon so we can review. There are not a huge amount of comments from OMB, OP has summarized, below:

- There are many comments on Priority Category “Substantive, Nonsignificant.” If your next stage is projected between now and 01/00/2021, you need to work with your RMD desk officer to submit a non-significance request. In some instances, OMB simply struck out “Nonsignificant” and added in “Significant.” Contact your desk officer if you would like to submit a non-significant request apart from comments in the agenda.
- As usual, many comments on whether or not EPA’s dates are too soon or too far out. Please respond appropriately.
- OMB has made several suggestions about being more consistent in the various science transparency and cost-benefit actions. OP will work with you on that language.
- In some cases, the data in ROCIS that produced this version of the Agenda & Plan is inaccurate. Please be patient – the Lotus Notes trouble you’ve been having applies to us in OP as well. Simply correct the data transmission errors.

Here is a link to our One Drive site so that all SRMS for each Office can edit the one shared document and then the IO can review and edit the one shared document, here is the link https://usepa-my.sharepoint.com/:f/r/personal/akopian_natalia_epa_gov/Documents/OW%20Fall%20Reg%20Agenda?csf=1&web=1&c=zvpylk

Finally, if you just want to read the two passback documents, here they are in WORD, but reminder that all Office edits should go on the One Drive link, above. Thanks! Christine
